

STYLIZER FIRE VFX

Everything is set now, just drag and drop the prefab to your scene and use it.
Here are some packages you need to use.

- Universal RP version 10.3.1 Jan 26,2021
- Visual Effect Graph version 10.3.2 March 01,2021

- Shader graph version 10.3.2 March 01,2021
- Support URP only.

And a free skybox package included.

If you have any trouble with this vfx, please contact me via email and I will solve it for you.
(before you write something in review).

Thank you!.
